

CITATION MANAGEMENT

What is a citation?

- A citation is a reference to the source of information used in your research. Any time you directly quote or paraphrase the essential elements of someone else's idea in your work, a citation should follow.

What is Citation Management?

- This is a tool that allows a user to organize and retrieve information, such as citations for books, articles, and Web sites, by interfacing with library databases.

Examples of citation management tools

- Zotero
- Refworks
- Mendeley
- Endnote
- Bibme

zotero

a bibliographic management tool

What is Zotero?

- Is *software* that allows you to easily collect, manage, and save bibliographic information about the items you find on the Web.

Generate bibliography!

The screenshot shows the Zotero application interface. On the left, a sidebar displays a tree view of collections: 'My Library', 'MSIS Dissertation', 'Union Catalogue for Kenya Dissertation', and 'Trash'. The 'Union Catalogue for Kenya Dissertation' collection is selected. A context menu is open over this collection, listing the following options: 'New Subcollection...', 'Rename Collection...', 'Remove Collection...', 'Export Collection...', 'Create Bibliography From Collection...', and 'Generate Report from Collection...'. The main pane on the right displays a list of items from the selected collection. The list has columns for 'Title', 'Creator', 'Type', 'Date Added', and a count. The items listed are:
